

# Joint service project using outdated desk calendars

Samuel R. Brown, Ph.D.

Calendars are cut into 9 1/2 inch squares.

Each 9 ½ inch square is paired with two 3 inch squares.

BE SAFE  
Whenever  
It May Be

**Thank you  
for your service**

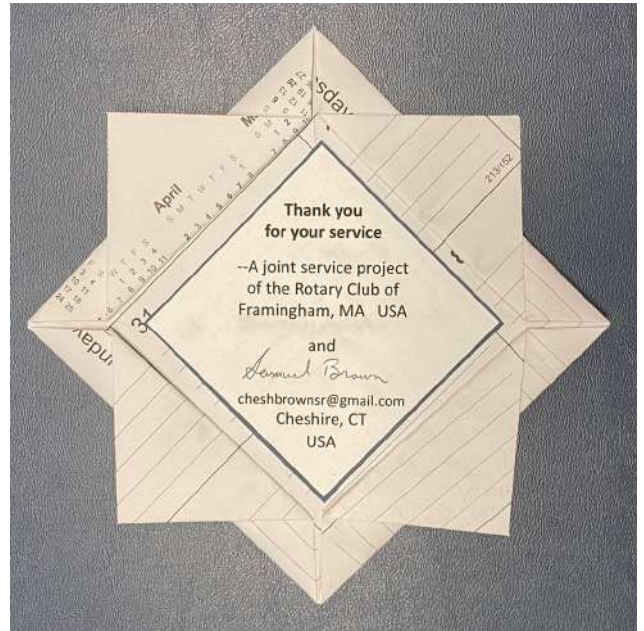

--A joint service project  
of the Rotary Club of  
Framingham, MA USA

The 9 ½ inch squares are folded into origami frames. The 3 inch squares are placed on the front and back of the frame.

And then folded in half to make it easier for shipment

The final step is packing the folded frames into a box. The frames will be included in care packages for men and women in the armed forces who are deployed around the world
