

Joint service project between Samuel Brown and Rotary Clubs and the Interact Clubs that they sponsor

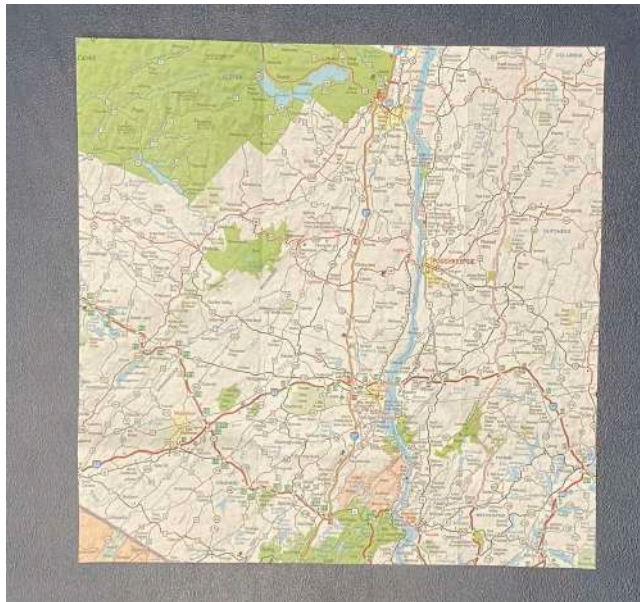

The project begins by American Automobile (AAA) offices sending Samuel Brown outdated roadmaps.

Each roadmap is cut into 9 ½ inch squares

A roadmap square is folded into an origami frame and paired with two 3 inch squares.

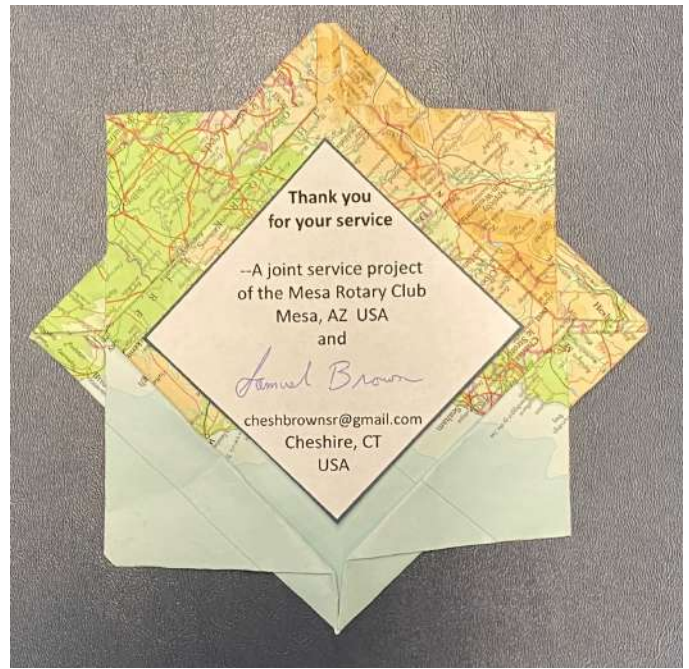

Use the PowerPoint file at this location to add the name and location of the participating Rotary Club for the square on the right:[www.srbrown.info/frames/service_club_template.pptx]. Additionally, the advisor to the Interact Club should cut out 3 inch squares of blank paper to be given to students in the step below.

Be Safe
Wherever
You May Go

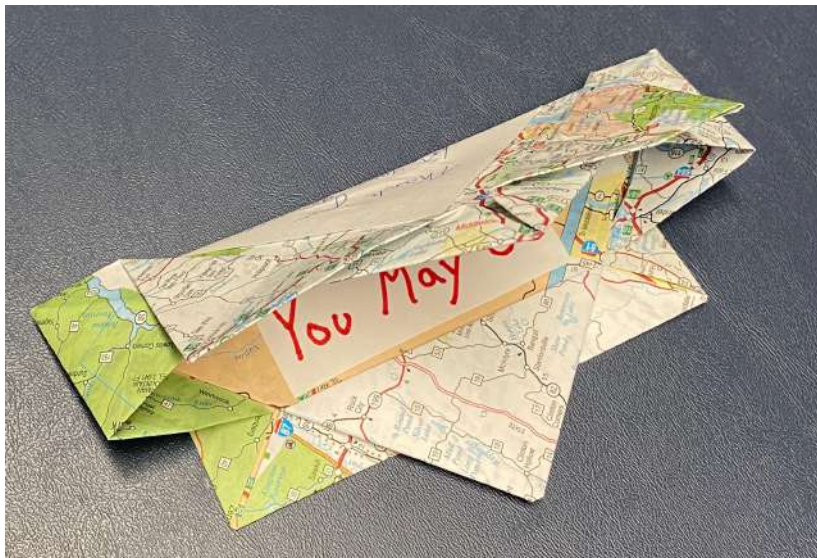

Thank you
for your service
--A joint service project
of the Mesa Rotary Club
Mesa, AZ USA
and
Samuel Brown
cheshbrownsr@gmail.com
Cheshire, CT
USA

The 3 inch squares are placed on the front and back of the frame

Students create artwork and/or words of encouragement on 3 inch pieces of paper. **At the bottom of the 3 inch piece of paper, each student should write his or her first name and the city and state.** The student creation is joined with a piece of tape (like a booklet) over the paper square with the words Be Safe Wherever You May Go.

The frame is folded in half to make it easier for shipment

Samuel Brown packs the folded frames into a box for shipment to one of these organizations for distribution with care packages to service men and women stationed around the world:

Operation: Care and Comfort [www.occ-usa.org]
San Jose, CA

Forgotten Soldiers Outreach [www.forgottensoldiers.org]
Lake Worth, FL

Operation Gratitude [www.OperationGratitude.com]
Chatsworth, CA
